

## SOF Harness

Part No.: HA30-OD

### Adjustable harness for packs

The SOF Harness is an adjustable, diagonal-strap pack harness designed for Airborne Operations. The X-shape and adjustable cross-strap secure all manner of odd shapes and pack configurations. Used with the dual-point release PASS straps, the harness system allows greater stability and a more controlled release. The harness de-rigs fast and easily stores in a cargo pocket.

- ▶ For use with dual-point release PASS straps for release control and quick rigging
- ▶ Adjustable cross strap enables a secure fit: from Assault packs to the tallest RECCE pack
- ▶ Lightweight at 1.2 lbs
- ▶ Certified, rated MIL-SPEC hardware
